

Buchan and Districts Local Incident Management Plan & Reference Guide Information Booklet 2016 – 2018

Version 5

This document is to assist the community in the development and preparation of their individual **Incident Management Plan** (in the event of an emergency).

Please take time to read it and share the information with others.

The Buchan community does not in any circumstances accept responsibility for the accuracy or suitability or otherwise of any information published in this booklet. It also disclaims any liability for loss or damage arising from the use of this booklet or the information contained therein.

The only **Designated Neighbourhood Safer Place** in times of fires is the **Buchan Recreation Oval**. This is for when personal emergency plans fail and is not for accommodation.

Our district MAP

Community Emergency Preparedness Information

Buchan and Districts

1. Introduction

The following is provided for information purposes only. The more prepared you are the greater your chance of survival when **any type** of emergency situation arises.

For accurate updates on emergency situations you should monitor your radio, internet, (stations listed in the back). Be mindful, verbal information may not be accurate.

2. Individual Emergency Plans

You need to consider:

- Making your own plan
- What is the risk?
- Do you stay or go if there is a threat of fire or flood
- Protection of your property and possessions
- Essential equipment you will need.

Don't become complacent. In the event of a bushfire you need to decide whether you will stay and actively defend your home or whether you will leave before the fire threatens. Leaving at the last minute when a fire is burning nearby can have serious, life threatening consequences. So LEAVE EARLY!

If you require assistance with a fire plan contact your local CFA, or the Victorian Bushfire Information Line. (Numbers listed in back).

The CFA booklet **Fire Ready Kit** updated 2013 is highly recommended and is available from the Neighbourhood House and General Store.

3. Map References

It is a safe practice to know the CFA Map Book reference for your location. Map books may be viewed at the Fire Station, Neighbourhood House, Buchan and Gelantipy Bush Nursing Centre, Visitor Centre Buchan Caves Reserve and Buchan Police Station. The Spatial Vision Map Book is another publication used by the emergency services and these are available at Newsagents. You should know your GPS map reference for your property.

4. Community Planning

Be prepared for any emergency that may impact on the people or the assets of our community.

Small community groups in the Buchan area can receive assistance from the CFA to develop bushfire strategies that suit their lifestyle, environment and values.

DEPI has recently had a name change to DELWP Department of Environment, Land, Water and Planning. DELWP encourages members of the community to be actively involved in fire planning throughout the year. Copies of the Fire Operations Plan Map are available at the Buchan Neighbourhood House and Buchan and Gelantipy Bush Nursing for viewing and suggestions. These suggestions may include areas the community would like to see added to or modified, in relation to planned burns and associated works. Contact the local DELWP office for further information, DELWP staff will be able to discuss issues with you and ensure you have the latest information to assist with suggestions.

5. Locations for Community Information

In the event of emergency, information will be available during working hours from:

- Buchan General Store
- Buchan Neighbourhood House
- Buchan Bush Nurse
- Gelantipy Bush Nurse
- Buchan Police Station
- W Tree Food Co Op
- Gelantipy CFA

6. Role of the Emergency Services

Depending on the type of emergency any of the emergency services or Government agencies may take the lead role. Other emergency services may take a supportive role. (This is the Incident Control Centre)

Possible lead emergency services:

- Police, State Emergency Service, Country Fire Authority,
- Department of Environment, Land, Water & Planning (DELWP)
- Parks Victoria.

Any of these agencies may be support agencies. In addition there may be East Gippsland Shire (EGSC), Buchan and/or Gelantipy Bush Nursing, St. Johns, Red Cross, Ambulance, etc.

Under the CFA Act there are numerous powers that are in place when there is the threat or presence of fire. These include access to properties and buildings and taking action which will assist in suppressing a fire.

Assist fire fighters by having gates unlocked.

7. When to Activate My Plan

Listen to your local ABC radio Station, view updates on the CFA or DELWP websites and make your decision to stay or go early on extreme or code red days. **The Victorian Bushfire Information Line is 1800 240 667.**

Once the Incident Control Centre is activated the Telephone Tree resource will be used, if necessary.

Phone Trees

Phone trees have been organised for Buchan and the district. Please check your contact details are correct at the Buchan Neighbourhood House and Gelantipy Bush Nursing Centre.

NB: while every effort will be made to phone you updates please use other resources to stay informed. The phone tree is an adjunct to information only. Know who your phone tree leader is and inform them of phone number changes.

8. Water and Food

Town Water Supply

- Firefighting operations do not rely on town water **but** in the event of a fire your water pressure will drop!
- Do not rely on your hose.
- Make plans for all scenarios!
- East Gippsland Water will ensure drinking water is available

River Water Supply

- This supply may be contaminated in the event of a flood / fire. Be prepared to boil water, for drinking.

Other Sources of Water

- Please identify an alternative water source in the event that your normal supply is interrupted.

Buchan Standpipe

- East Gippsland water sell the tokens for the standpipe at the Bairnsdale office or Orbost depot. Currently they are \$3.83 per token which is for 1000 litres of water.
- It would be advantageous for those that can cart water have their own cache of token prior to an event so that they have immediate access to water (\$20 worth is over 5000 litres).

The Standpipe is situated on the corner of Orbost and Centre Road, between the Kindergarten and the Netball courts.

Food Supplies

As deliveries of fresh food may not occur have a supply on hand for emergencies.

9. Registration- Red Cross

- Police will activate the Red Cross registration centres when it is deemed necessary. If your emergency plan is to leave your premises it is requested that you register yourself, in person, at the registration centre.
- The location will be the Buchan Reserve Recreation Pavilion in the event of fire and the Buchan Mechanics Hall or Buchan Valley Log Cabins in the event of a flood. However, if your plan is to leave town prior to a registration centre being activated it is still requested that you register by contacting **1300 555 886**. Registration allows your whereabouts to be verified.

10. Assembly Areas

Local Assembly Areas

The assembly areas that will be utilised for any person in this area will be:

In the event of Fire:	Buchan	Recreation Oval
	Gelantipy	CFA Shed
	W Tree	Julia and Ian's Wool

Shed, 2440 Gelantipy Road - opposite the B98 sign

In the event of Flood:	Buchan Mechanics Hall
	Buchan Valley Log Cabins

If you are using an assembly area you may be updated on the emergency situation.

Parking areas will be allocated to ensure that all accesses are clear. Please ensure that your vehicle is parked in an allocated area.

Parents are to ensure that children are suitably behaved.

Pets are the owner's responsibility and should be under control at all times.

Bring **medications**, personal items, and your child's favourite toy/comforter. It is advised that people also bring dust masks and wear appropriate clothing.

Alcohol at the Assembly area is strictly forbidden.

11. Staging Areas

A staging area is a place where Emergency Services hold their briefings for their crews. The lead emergency services will identify a location or locations where these will be held.

Staging areas are for emergency services personnel only.

Helicopter Staging Area

Unless viable alternative locations are not available or an emergency dictates otherwise, aircraft operations will not occur from the oval.

12. First Aid & Medical Considerations

The Bush Nursing services will continue to operate as usual subject to staffing & personal safety. Generally home visits will be kept to a minimum. Identified emergency services, e.g. St. Johns may assist at the assembly area.

Ambulance - Usual service applies subject to being able to provide a service safely.

Medication –Is your own responsibility.

Consideration should be given to evacuating any person under the age of 17, any person over the age of 70 and anyone who has a medical condition or requires extra care.

13. Follow Up Assistance

It is not uncommon for people to need personal support following an emergency. If you need assistance in any form please contact Buchan or Gelantipy Bush Nursing, or East Gippsland Shire.

14. Road Closures

If any road is closed obey directions as provided. A road will only be closed if it is deemed unsafe. Roads will be reopened for local access with appropriate identification as soon as it's safe.

For identification, copy your driver's license or rate notice to keep in your glove box, this will show the police you are a local resident and not sightseeing. Include a rate notice if you have other farming property elsewhere.

15. Services

Electricity

- Expect and plan for power disruptions.
- a mineral earth break (i.e. bare dirt) should be prepared around the base of the wooden poles.
- Grid connected solar systems may automatically disconnect in a blackout.

Telephone

- Plan for Telephone Disruptions!
- Mobile phone coverage may not be reliable.
- Telstra or other service providers can assist with telephone diversions.

When the phone service fails, **emergency calls** can be made using:

- Trunk radio
- Satellite phones

The locations of these facilities are listed in the back.

Radio Stations

- Monitor the ABC radio stations, as listed in the back, for all information.
- Have a battery operated radio and spare batteries

Other Communications

- UHF radio when and if available

Fuel/Petrol Stations

- Fuel supplies may be limited, or interrupted in any emergency.
- No power-no fuel

Your Feedback

This information booklet is for the emergency management arrangements for Buchan and surrounding districts.

If you have any comments about this booklet please contact the Buchan Neighbourhood House
Telephone 5155 9216

Participate/attend your community emergency meetings. It is now in your hands to keep up to date with information when an emergency event may impact, by using this LIMP plan as a reference guide for seeking information.

Remember if you feel a fire or flood may impact on you and you feel unsafe, remember to leave early before it is too late.
