## Lindenow-Glenaladale Road Bridge Replacement Project Update

For immediate release — 14 February 2016

East Gippsland Shire Council recently announced at a community information session that the Lindenow-Glenaladale Bridge will close on March 28.

The construction team are currently stockpiling materials and preparing for demolition works to commence. The bridge remains open during this time.

Willow trees have been removed from the river bank to allow access for heavy machinery.

A temporary water main support will be put in place at the end of April.

Council is investigating signage documenting the history of the bridge. This will be installed onsite once the new bridge is complete.

### How can you stay informed?

Anyone wanting to receive updates on the project can register for the Lindenow Connect e-newsletter at <http://eepurl.com/cbnn1f>.

Council's Your Say East Gippsland website also has a page dedicated to information on the bridge replacement: <http://yoursay.eastgippsland.vic.gov.au/lindenow-glenaladale-road-bridge-replacement>.
